

This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

Usage guidelines

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

- + *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.
- + *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.
- + *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.
- + *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

About Google Book Search

Google's mission is to organize the world's information and to make it universally accessible and useful. Google Book Search helps readers discover the world's books while helping authors and publishers reach new audiences. You can search through the full text of this book on the web at <http://books.google.com/>

CITY OF
LIST OF
CITY AND COUNTY EMPLOYEES,

WITH THEIR

RESIDENCES AND SALARIES, ETC.

PREPARED UNDER THE DIRECTION OF THE SPECIAL
COMMITTEE OF THE COMMON COUNCIL,
APPOINTED APRIL 26, 1888.

IN COMMON COUNCIL, December 20, 1888.

*To the Honorable the Common Council of the City of
Boston: —*

The special committee appointed by your honorable body, with reference to preparing a list of city employees, beg leave to

REPORT.

The duty imposed on the committee was decidedly onerous by reason of the nature of the information sought for under your order, as well as delays experienced in a few quarters in the way of response to the inquiry.

The committee, however, labored patiently and steadfastly to accomplish the work called for under the order.

The members of the committee are unanimous in the opinion that the information contained in the report will be interesting to all citizens and tax-payers alike. However, in

the preparation of the report, much in the way of suggestions was developed. Hence, accompanying herewith, are majority and minority reports. The committee are agreed that any suggestions that may improve the intricate machinery of our municipal government and at the same time benefit the tax-payers and the whole community, — upon whom the burden for its support must fall, — cannot but be interesting to the people who have the welfare of the city at heart.

For the Committee,

THOMAS F. KEENAN,

Chairman.

THE MAJORITY REPORT.

The majority of the members of your committee — Messrs. Keenan, Desmond, and McKenna — present the following:—

The majority of the committee wish to acknowledge the unanimity of action and persistency that characterized every member of the committee in the effort to collect the information sought under the order.

The gentlemen representing the minority of the committee were as zealous and as painstaking as ourselves in assisting in the work. Like many inquiries set on foot in legislative branches of government, the information sought for under the order, under which your committee acted, in the opinion of the majority of the committee, had its inception in politics.

Among the first orders of Mr. Morison, of Ward 9, one of the Republican leaders in the Council, was one seeking ostensibly for information whereby an increase of some \$180,000 in salaries, between 1885 and the close of the last fiscal year, might be explained.

The majority of your committee do not care to assume what Mr. Morison's motives were, although it was hinted at the time that his action was but the forerunner of a move to scale down the salaries of all city employees on the plea of economy.

The development that the bulk of the \$180,000 referred to was due to increase of salaries in the police and fire departments, was impressed on the gentleman.

The introduction of the order led to an inference on the part of the chairman of this committee that the mover had an ulterior purpose not entirely free from politics, and that he wished to be discriminative in his selection of certain employees.

This order, after much discussion, as amended was passed in the Council, but the Board of Aldermen refused to concur.

The Common Council, however, finally decided to seek the information asked for under the original order and its amendments, and then followed the appointment of your special committee.

With the view of facilitating the work of the committee, a circular, reading as follows, was addressed to the heads of the several departments, city and county, who draw maintenance through the treasurer of the city of Boston:—

DEAR SIR, — The following order was passed by the Common Council, April 26, 1888: —

“ *Ordered*, That Messrs. Keenan, Pierce, Desmond, Bowman, and McKenna, be a committee to prepare a list of all male and female employees of the City of Boston and County of Suffolk who draw salaries from the city treasury, with the dates of the appointment of such employees, the salaries for which they were engaged, their residences and wards at the time of their appointment, and their present salaries, residences, and wards, also, the birthplace of all employees of the City of Boston; also, a list of all persons who have furnished supplies for city or county purposes during the past three years, the payment for such supplies amounting in any one year to a thousand dollars or over.”

Pursuant to the requirements of the order, and in behalf of the committee therein named, you are hereby requested to furnish on the enclosed blanks a complete list of the employees in your department and forward the same to this office at your early convenience.

Very respectfully yours,

JAMES L. HILLARD,

Clerk of Committees.

While some of the departments reported with alacrity, others seemed to require considerable time. The delay in some instances was due to an impression, no doubt, that the committee had all the year to report, and in other cases, perhaps, that it was an unwarranted assumption on the part of the Common Council to request such information regarding the servants of the citizens and tax-payers of the great municipal corporation of Boston.

Among the departments last to respond was that governing our schools, and it was only upon a third demand for the information sought that the officials in authority deemed it proper to comply. In this connection it should be stated that the School Board of Boston holds itself nowise subservient to the legislative or governing branches — the City Council — of the municipal corporation. Under the statutes governing its creation the Board exercises the right to govern Boston's schools as it pleases, irrespective of any ordinances which may be in force respecting non-resident employees by city departments, or expenses that it may incur in running the schools. The intent of the laws conferring the powers so exercised by the Board cannot but interest tax-payers, inasmuch as under such assumption of authority — legal or otherwise — it is held (especially by the School Board) that it is compulsory on the City Council to appropriate money sufficient to meet any and all expenditures of the Board. It is not within the province of your committee to argue the legality of such powers as now vested in the Board, yet it is proper to point out a condition that exists in our municipal system that might be mischievous under certain contingencies.

A fundamental principle of local self-government is, that the people of the community governed, who contribute to its support, shall receive what benefits it may bestow before any preference is shown non-residents. This reference is suggested by the employment of many non-resident teachers in our schools, to the detriment of residents, who, after preparation and qualification as teachers in our educational institutions, are obliged to seek elsewhere for employment, and at salaries much less than those paid in Boston. The list of Boston's non-resident teachers, as recently prepared by the clerk of the School Board, is presented as an appendix to this report, and is self explanatory.

The majority of your committee believe that the employment of many of these non-resident teachers, appointed since 1879, to be in violation of the city ordinance requiring employees to be residents of the city, which ordinance relates to departments of the city generally.

(Rev. Ord. 1885, Chap. 6, Sect. 5, — "No salary shall be paid by the city to a non-resident, unless his official duties are to be performed mainly outside of the city limits; but this rule shall not apply to non-residents who held office under the city on the third day of January, in the year eighteen hundred and seventy-nine.")

In a few other departments of the city the same principle, as well as ordinance, seems to have been violated. The ordinance, as it especially applies to the employment of persons on work out of the city, is recognized by the committee. Reference to the employment of non-residents under Boston's city government is not made here with any desire to affect those already in the city's employ, but rather to call attention to what might be termed an existing injustice, and which should be obviated by the School Board or by legislation to that end.

It is not the intention, much less the desire, of your committee to comment on what an analysis of the data in the report may show relative to the nationality of the many people who are in the paid employ of the city. That would be unfair and unjust. Therefore, no summary or comparison, as regards the nationalities of employees, has been assumed; neither does your committee assume to denote the politics of employees. Yet, in view of the conflicting criticisms engendered by partisans at times, the majority of your committee wish to present the fact, that of the salaries embraced in the city's expenditures the employees of Republican proclivities draw over fifty per cent.

This estimate nowise has reference to expenditures otherwise through contractors, and for materials, supplies, etc.

As might be expected, the committee, in a great measure, had to rely on the returns made by the heads of the several city and county departments to the inquiry sent out. The pay-rolls of the City Auditor, however, came in quite handy in the way of a comparison with the returns. In some quarters the work of the committee was severely criticised. Some officials, especially some of those holding county positions, wished the Common Council in perdition. Never before had such information been sought, and apparently it did not seem to dawn on those officials that the tax-payers and citizens had a right to inquire relative to their servants, and who were in receipt of the public bounty. Your committee continued its work with a quiet dignity becoming the representative branch of the people. Where there was apparent hesitancy to comply with the inquiry, the request for the information was courteously repeated. Finally, where the disposition was developed not to comply, your committee, without captiousness in the least, demanded the information it had the right to do in the exercise of the prerogatives as vested in them by the tax-payers and citizens.

The reservedness of some officials in furnishing information affords an illustration in the reply of Clerk Joseph A. Willard, of the Superior Civil Court. The gentleman, in condescending to furnish the list of employees under him, failed to give the information regarding himself. His comment on the subject of the inquiry is given in the report, more especially because of the nature of the joke he would perpetrate at the expense of his masters, the tax-payers of Suffolk County. His reference about the information people might seek touching his diet was irrelevant to the inquiry sent him, and as much so as would be any query of such a nature from any one who knows the gentleman.

Certainly your committee has never suspected him of any extravagance of living. In the absence of the information which Mr. Willard failed to furnish, the committee beg leave to state that he has served the county for over a quarter of a century; that for many years the fees of the office paid him are in the whereabouts of some nine or ten thousand dollars annually; that his present income from his office is sixty-five hundred dollars annually, as fixed by statute, which went into effect last July; that he now resides in Boston, although some six years ago the question was raised, when he was a candidate for reelection before the people of Suffolk County, whether or not he was a resident of Cambridge, Mass. Notwithstanding the gentleman's reserve to be communicative, he evidently thinks he is an indispensable public servant, like

many other county officers. Hence his joke at the expense of your committee is allowed to stand.

With regard to the office of Register of Deeds, Mr. Temple, it is in order to state that in the office there are employed clerks or assistants whom Mr. Temple does not include in his report, or whose names do not appear on the Auditor's pay-rolls. Mr. Temple explains the employment of those persons by a special privilege conferred on the Index Commissioners, to whose credit Mr. Temple drew \$5,000 the present year.

The Register of Probate, Mr. Elijah George, does not report the names of all the clerks in his employ. The information is vouchsafed in a general way that those he does not report come under the head of temporary employees, under statute laws, whose names might be learned whenever vouchers in their behalf pass through the hands of the City Auditor.

Your committee do not wish to express any severe strictures upon the conservatism of the registers referred to. The tax-payers most concerned, however, may form their own opinions. Who the persons are that are not reported by these officers, and from whence they come, matters little to the committee; yet the principle involved is the same, wherein the people should know to whom they pay out their money in the support of government.

Another suggestion incident to the possible improvement of the public service has been impressed on the majority of the committee, and by expression given to it by the chairman. The suggestion is given here simply as such, and nowise in the sense of a recommendation. The importance of a large body of office-holders, as a factor in elections, prompts the suggestion, whether or not a limited tenure of service, relative to elective and appointive officers in commissions, boards, and heads of city and county departments, would not be beneficial.

By legislation a limit of tenure could be made operative, whereby men elective or appointive to high office should not be eligible to reelection or reappointment to the same office for a successive term after two, three, or five years' service, as the single term might be established. Such a tenure of office might be beneficial. It might afford an opportunity for rotation in filling the public offices as does not exist under the present condition of affairs, and governed, in great part, by custom sustained and controlled by political parties.

By limited tenure, which would only apply to the heads of departments, the efficiency of the departments, through subordinates, would in nowise suffer. By it the trading and

combines now prevalent among men in high office, and prominent and influential in either of the two great political parties, would soon disappear. Any possible oligarchy of office-holders would thus cease to be feared. Through rotation, the government more than ever would be brought nearer the people, more of whom would receive a just consideration in the way of public recognition. Civil service under such tenure would likely work far smoother than under present conditions. The principle embodied in the statute, limiting the service of the State Treasurer to five successive years, is applicable to the suggestion here.

The successful inauguration of such limited tenure, after a few years, might lead to still further beneficent results, in the way of biennial elections, by which business would not be interrupted, or class or race prejudice liable to run riot, as is now the case annually in our midst. It is not probable that this suggestion will receive any great appreciation from either Republicans or Democrats holding high office. Neither is it probable that a Republican Legislature will see any utility in the suggestion, coming, as it does, from the lower branch of Boston's City Government, whose welfare of late years, it would seem, has been the sole subject of solicitude of solons who impose on a community by infringing on the rights of local self-government.

Yet, in the tenure of office, as suggested, and applied generally, the dominant party might find a panacea for evils now existing and due to the overcrowding of candidates for office within its own ranks. The data furnished in the report, as it may apply to the various departments, is as full as could be provided for under the order. There may be some inaccuracies, under all the circumstances of handling it.

No further comment is deemed necessary relative to the information as it may have reference to employees, who should all stand in the eyes of the people — their masters — as good and true Americans. What criticism has been offered by your committee is considered essential only to a full recognition of that spirit of equity which should demand that all men should assume their just and proper share of the public burden of a community before assuming any right to thrive through its bounty. In preparing the report, clerks were employed to compare the returns with the lists of the qualified voters of Boston used at the municipal election of 1887. To our surprise quite a number of men in the service of the city were not found on the voting-lists of that year. For the edification of such gentlemen it might be interesting for them to know, that, not being qualified voters of Boston, it is questionable whether or not they were

eligible to service under the city. Perhaps their neglect to register or qualify may have been due to that spirit of non-partisanship which causes some men to lose interest in politics or party after they once get comfortably ensconced in a soft office.

In a few instances, where the families are spending long vacations in suburban towns, the failure of some of the men to get on the voting-lists may be due to their short memories as to their actual place of domicile. The names prefixed with the asterisk are those of employees not on the voting-list of 1887.

In regard to the information sought relative to supplies, the returns made in answer to the inquiry are given as received from the several departments. Some of the departments appear to have overlooked the inquiry as to supplies; but your committee, to get out the report in some shape or other, decided finally not to waste further time on their account.

The report is the first of its kind ever furnished by any government of the city of Boston. In view of the immense labor involved on the part of the committee, as well as the value and appreciation such a work should receive from citizens, your committee recommend the establishment of an ordinance whereby the heads of all city and county departments shall, once a year, the first of June, or earlier, furnish to the City Clerk a certified list of all employees in their respective departments, with all the necessary information regarding the persons that may be desirable, as in the nature of the report herewith presented; the City Clerk to cause to be published the list thus furnished and arranged by him in the form of a city document annually.

The majority, in giving expression to their opinions, have endeavored to avoid political bias as much as possible. They are not inclined to be discourteous, as intimated in the objections advanced by the minority of the committee, who, as a matter of course, "object." They recognize all that may be implied by amenities in life. They are not forgetful that the days of the millennium are yet afar off, and that it is yet beyond the control of anybody to regulate affairs of government to the satisfaction of everybody. Mindful of all this, the majority of your committee, however, feel confident that the report will more than ordinarily interest statesmen of political parties, office-holders, and citizens,—all of whom may be said to have a contingent interest in what might be termed the cause of the taxpayers.

The citizens cannot do any too much for their faithful

public servants, and the latter cannot give too much to the people who contribute to, and are solicitous for, their welfare.

A mutual feeling of appreciation and gratitude should exist between both.

In this spirit of justice the majority of your committee present this report.

Respectfully submitted,

THOMAS F. KEENAN, *Chairman.*

MAURICE J. McKENNA.

CORNELIUS F. DESMOND.

THE MINORITY REPORT.

The undersigned, members of your committee ordered to prepare a list of male and female employees of the city of Boston, with salaries, etc., respectfully dissent from the report submitted by the majority of the committee; and on account of the length of the report, and as our objections lie against so many of its statements, we may take them *seriatim*.

1. We object to the remarks concerning Mr. Morison, of Ward 9, in that he is charged with a "purpose not entirely free from politics," in offering an order at a meeting of the Council, similar, in some respects, to the order under which we have worked. The comments of the majority of the committee seem discourteous and irrelevant.

2. We object to the statement that "of the salaries embraced in the city's expenditures the employees of Republican proclivities draw over fifty per cent."

What there is in the statistical information furnished by the different departments to warrant any such statement we fail to see. The fact may be as stated, or it may not, but it is certainly based on information obtained from some source unknown to us; a careful study of the names, figures, and other data, will fail to discover any foundation for such statement. It is in direct contradiction of their statement that "your committee does not assume to denote the politics of employees." It is irrelevant.

3. We object to incorporating into a report, or rather the preface of a report, of this kind the language used with reference to Clerk Willard. It would comport better with the dignity of a committee of this body to pass without mention his reply in answer to our request, and to leave unnoticed the questions raised years ago regarding his residence, and to leave unsaid the remarks concerning his private affairs.

All that is said by the majority of the committee in this regard is also irrelevant.

4. We object to and condemn the insinuations and innuendoes of the majority committee against Registers Temple and George. Their report will be in permanent form, so we

wish to say here, that Mr. George, when his attention was called to the fact that his list was incomplete, said the persons in his department whose names had not been listed were paid by the State out of the State treasury, hence did not come under the head of city employees; he also courteously offered to furnish their names, with the other information, if desired by the committee. Mr. George has proved a faithful public official; is appreciated by the citizens of the county, as shown by his late reelection, and this attempt to slur him and to injure him gives us fair reason to believe it is prompted by disappointment at his success and the defeat of his rival. The remarks concerning him are objected to on the ground that they are also irrelevant.

5. We object to the expression in this place of the opinion of the majority committee regarding tenure of service; it is irrelevant.

6. We object to the statement, "Boston's City Government, whose welfare of late years has been the sole subject of solicitude of solons who impose on a community by infringing on the rights of self-government." The majority committee seem to have some fancied grievance, and are trying to use this report as a club to hit some one with. The remarks are in bad taste; they are also irrelevant.

7. We do not indorse the recommendation of an ordinance calling for the compilation and publication annually of a city document containing information similar to that furnished herewith. This is the first document of its kind; it may or it may not be of much value or use; if it prove valuable, the next and succeeding government can safely deal with it. Let the work first prove its value. Let it speak for itself.

8. Concisely stated, our position is this: Your committee were ordered to prepare a list of male and female employees of the city of Boston, with salaries, etc. When this list was prepared our work was done. The introduction of arguments, suggestions, opinions, and flings at political parties and public officials are out of order, irrelevant, and entirely beyond the scope of our instructions.

ROBERT H. BOWMAN,
ISRAEL F. PIERCE.

APPENDIX.

LIST OF CITY EMPLOYEES.

NOTE. — All names of employees marked with an asterisk (*) are not on List of Qualified Voters of Boston, December, 1887.

Woodbury, Alfred L., <i>Clerk</i>	Boston	1888.	Boston	887 Washington st., Ward 12		

NOTE. — The only salaries established in this department are those of the Principal Assessors, Chief Clerk, and the Messenger. All others herein named are First Assistants, Second Assistants, and Clerks. The salaries of the Assistant Assessors are established by ordinance for: First Assistants at the rate of \$7 per day, making the total amount received \$700; the Second Assistants at the rate of \$5 per day, making the total amount received \$250. The clerical force employed in the department are paid by contract for work performed, and the established price paid for extra work is at the rate of \$4 per day. The comparisons in amount in columns "When Appointed," and "At Present," show large differences in some cases, and the explanation is made, viz.: a Second Assistant promoted to First increases his salary, and a First promoted to "Principal" shows a much larger increase on account of "permanent service." Many of the clerks are only employed a portion of the year.

Respectfully submitted,

JOSHUA S. DUNKLEE, *Secretary.*

SUPERIOR COURT (CIVIL).

¹ Clerk in office 1855 to 1865; then appointed Assistant Clerk.

² Clerk in office 1866 to 1877; then appointed Second Assistant Clerk.

³ Clerk in office since 1865; paid by county 1879.

Clerk Joseph A. Willard draws \$6,000 a year.

NOTE. — The Clerk of the Superior Court is not an employee, but an official elected by the people of the county. If he is asked to communicate his position, birthplace, etc., and even where he dines, it will be communicated readily, as he has nothing to conceal; but it is not asked for in the circular to him addressed.

JOS. A. WILLARD, *Clerk.*

SCHOOL DOCUMENT NO. 13—1888.

LIST OF
NON-RESIDENT INSTRUCTORS

OF THE
BOSTON PUBLIC SCHOOLS,
NOVEMBER, 1888.

BOSTON:
ROCKWELL AND CHURCHILL, CITY PRINTERS,
No. 39 ARCH STREET.
1888.

IN SCHOOL COMMITTEE, BOSTON, Nov. 13, 1888.
Accepted, and ordered to be printed.

Attest :

PHINEAS BATES,
Secretary.

BOSTON, Nov. 13, 1888.

WILLIAM C. WILLIAMSON, Esq.,

President of the School Committee: —

DEAR SIR, — In accordance with the order passed by the Board, Oct. 9, 1888, "That the Clerk of the School Board be requested to report to the Board a list of non-resident instructors of the Boston Public Schools who are receiving salaries from the City of Boston, the amounts of their salaries, and their places of residence at the time of their appointments," the undersigned respectfully submits the following list.

Respectfully yours,

PHINEAS BATES,

Secretary.
